INSTRUCTIONS TO AUTHORS

Scope of the Journal

“Indian Journal of Veterinary and Animal Sciences Research” published six times in a year will consider original papers for publication on all aspects of animal and fisheries sciences. The scope of the journal includes animal and fisheries health, management, production and marketing of products. Acceptance of manuscript will be based on scientific merit as judged by referees and Editorial Board.

Submission of manuscripts

Manuscripts should be written in English and the spelling should follow the Oxford English Dictionary. Manuscripts should be submitted in triplicate along with Rs. 200/- as Cheque / Demand Draft drawn in favour of “The Chief Editor, IJVASR & Director of Research, TANUVAS, Chennai – 600 051” as processing fee to the Chief Editor, “Indian Journal of Veterinary and Animal Sciences Research”, Directorate of Research and Animal Sciences, Madhavaram Milk Colony, Chennai – 600 051, INDIA, through the Head of the Department/Station. Manuscripts can also be submitted by email to the email id: ijvasr@tanuvas.org.in

The authors should give a statement to the effect that the “Articles sent to IJVASR have not been sent elsewhere for publication”. The statement should also be signed by all the authors. Email id of the first or corresponding author should be provided.

Preparation of manuscripts

All manuscripts should be typed on one side of the A4 paper, double-spaced throughout, with margins of at least 25mm all around. All contributions will be subjected to editorial revision.

Major headings are centered, all capitals and the full length papers should consist of Abstract, Introduction, Materials and Methods, Results and Discussion, Acknowledgement (optional) and References. First subheadings begin at the left margin and the text that follows a first subheading should be in a new paragraph.

Full length papers should normally not exceed 3000 words in length including tables and illustrations i.e. approximately five journal pages and should contain the following section, each written concisely:

A Title page containing (a) the title of the paper in capital letters, (b) the names of authors in full with initials, (c) the authors’ department and complete postal address. Superscript numbers should be used to link author with other institution. Provide maximum of five key words for full length paper and three for short communication for subject indexing.
An Abstract will be printed at the beginning of the paper. Abstract should not be more than 150 words emphasizing objectives, experimental procedure, results and conclusions. Use complete sentences and limit the use of abbreviations. It should be in a form suitable for abstracting journals to use.

A brief introduction with specific emphasis on the necessity for such a kind of research may be given.

Materials and methods section may refer to previous description of methods whenever possible. This section should include methods of statistical analysis.

Results and Discussion may contain sub-heading if appropriate. This part should be brief and to the point, without repetition of results.

An Acknowledgement section, if required, may be given.

References section should contain only essential references which should be listed alphabetically and written as indicated below.

Tables should be typed on separate sheets, numbered consecutively in Arabic Numerals and have a short descriptive heading. Units of measure for each variable measured should be indicated. Appropriate estimates of variation (Standard error, standard deviation) must be provided with means. Use superscript letters for the separation of means in the body of the table and explain these in footnotes.

Illustrations, referred to as “figures” (Fig. 1 etc.) should be on separate sheets and submitted larger than the size desired for reproduction. Information in tables must not be duplicated in figures and vice-versa. Legends, should be provided for each illustration. Each illustration must have the name of the author and figure number penciled on the back. Line drawings should be either in black ink on smooth white paper or thin board or a good quality laser printout. Photographs and photomicrographs should be printed on glossy paper with good contrast. Magnification for photomicrographs should be indicated. All illustrations should bear on the reverse side, the first author’s name and the figure number, the ‘top’ of the figure should be indicated.
Short communications and case reports should have a title page as described for full length papers and should comprise approximately 1000 words including tables, illustrations and references. They may contain not more than two tables or illustrations. Methods, results and discussion should be in single section without headings. References should be kept to a minimum and be in the form described above.

Unit, symbols and abbreviations

Units should conform to the International System of Units (refer Baron, D.N. (1994). Units, Symbols and Abbreviations : A Guide for Biological and Medical Authors. 4th ed. London. Royal Society of Medicine). Abbreviations should not be used in the title, section heading or at the beginning of sentences. As a rule, author-coined abbreviations should be in all capital letters. These should be spelled out in full with the abbreviation following in parentheses the first time they are mentioned.

Proofs

Proofs will usually be sent to the first or corresponding author. Only typesetter’s errors may be corrected no changes in, or additions to, the edited manuscript will be allowed. It is a condition of acceptance that the Editors reserve the right to proceed to press without submitting the proofs to the author. While reasonable care will be taken to ensure that proof reading is correctly done, neither the Editors nor the Publishers shall be responsible for any errors.

Reprints

It has been decided to discontinue the supply of 25 reprints as the contents of the articles is hosted as PDF in TANUVAS website. (www.tanuvas.ac.in/ijvasr.html).
